ABOUT US

Lindtech College is a technical college established to primarily address the skills development needs of young people within the ICT, Catering, Fashion, Hairdressing & Beauty Therapy, Event Management, among other key sectors of the Kenyan economy.

We have a management and teaching staff committed to play a role in transforming the economy of Kenya by empowering the youth with skills needed for the 21st Century marketplace.

By partnering with regulating agencies and examining bodies such as TVET, NITA, KNEC, KASNEB, we have established a center of learning committed to international best practice in training.

As a College, we are confident that our establishment will contribute in many ways to build the necessary baseline skills and capabilities of the Kenyan workforce and enterprise at affordable prices. Our policy is to never promote a course to the market until they are satisfied that the course material and ability to provide an excellent service compare favorably with the best in the market and probably exceeding it mostly.

OUR VALUES

- Growth through empowering others to help build a better society
- Pursuit for excellence across all fields in which we operate
- Foster a corporate culture of innovation and professionalism amongst our associates, staff and learners.

OUR PHILOSOPHY

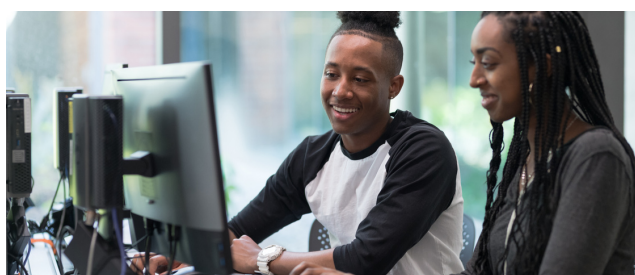

Lindtech College will be a participatory institution that will be sensitive to the needs of its students, their families, employees, administrators and the entire society.

We will strive to define and make visible all issues that concern us at large, and take a Student/stakeholder focused, Participatory, Socially responsible, application-oriented approach that is focused on developing and disseminating knowledge and skills. Our techniques will be geared towards meeting the social and training needs of the future.

OUR MISSION

Lindtech College aims to equip the Kenyan youth with the necessary skills capacity to drive entrepreneurship and economic growth in Kenya.

OUR VISION

To be the preferred partner in the development, delivery and implementation of quality Skills Programs, Business Solutions and Education in Nairobi and Kenya.

A CENTRE OF TRAINING EXCELLENCE

Appropriate technology-driven research and cooperation with existing higher and Further Education and Training (FET) Institutions enables Lindtech College to present and promote relevant workshops, seminars and short courses in the selected fields of learning.

SCHOOL OF COMPUTING AND INFORMATION TECHNOLOGY

We offer diploma, certificate and skills courses that are tailored to meet new and rising demands of IT professionals both for formal employment and self employment. We have a laser focus in producing ICT professionals who can quickly fit in a dynamic marketplace, ethical, highly skilled and flexible to work in basically all IT fields and to adjust swiftly to any future changes in the technology

Lindtech School of Computing and Information Technology was born from an Internet Café, where the founder of the business recognized rose to the task after having identified a huge gap in ICT proficiency among the many Cyber cafe users. Having a background of computer training, Lindtech Computer Training soon took root and has grown from strength to strength. Lindtech School of Computing and IT is designed to offer short, intensive, personalized courses that effectively present new concepts and techniques through interactive training methods. Small focused groups allow for individual attention and the practical application of theory.
