ABOUT US

Lindtech College is a technical college established to primarily address the skills development needs of young people within the ICT, Catering, Fashion, Hairdressing & Beauty Therapy, Event Management, among other key sectors of the Kenyan economy.

We have a management and teaching staff committed to play a role in transforming the economy of Kenya by empowering the youth with skills needed for the 21st Century marketplace.

By partnering with regulating agencies and examining bodies such as TVET, NITA, KNEC, KASNEB, we have established a center of learning committed to international best practice in training.

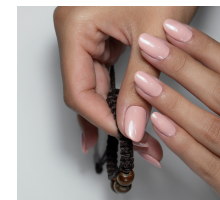

Appropriate technology-driven research and cooperation with existing higher and Further Education and Training (FET) Institutions enables the College to present and promote relevant workshops, seminars and short courses in the selected fields of learning.

As a College, we are confident that our establishment will contribute in many ways to build the necessary baseline skills and capabilities of the Kenyan workforce and enterprise at affordable prices. Our policy is to never promote a course to the market until they are satisfied that the course material and ability to provide an excellent service compare favorably with the best in the market and probably exceeding it mostly.
